ADOPTION SEARCH IN NEW HAMPSHIRE

Beginning January 1, 2005 adult adopted persons (age 18 or older) born in New Hampshire can obtain a non-certified copy of their original birth certificate from the NH Division of Vital Records Administration. If a birth parent has filled out a Contact Preference Form and Medical History Form and filed them with the NH Division of Vital Records Administration, copies will be issued at the same time. Blank forms can be obtained at the NH Division of Vital Records Administration, 29 Hazen Dr., Concord, NH 03301, or call (603) 271-4650.

If you wish to obtain additional information from your adoption record, the adoption law allows:

Adopted individuals to request non-identifying medical and social information from the agency that finalized their adoption.

Adopted individuals to request a search for their birth parents by the agency that finalized their adoption. That agency would act as the intermediary during the search process and attempt to locate the birth parent and inquire if contact is desired. Identifying information can be released with the consent of both parties.

Adopted individuals who do not know which agency finalized their adoption, or individuals whose adoption was finalized through an attorney, may contact the NH Division For Children, Youth and Families for assistance.
